How to floss

Loop the floss around your middle fingers.

Bend the floss towards the front and back teeth in order to clean both tooth surfaces, Use your thumbs to direct the floss between the upper teeth.

How to brush

Place the brush at 45 angle to the front tooth surface. Bristle must contact both lines of tooth and gum.

Move the brush in a small, jiggling, circular motion..

Clean the inside surfaces of the back teeth by moving the brush in a small back and forth motion.

Clean the inside surfaces of the front upper teeth by tilting the brush vertically using small up and down strokes,
